

POWER PATROL: SPOT IT, STOP IT, SAVE IT

Get involved
in the Students
Sustainability
Leaders
network.

Join other students to identify energy waste hotspots in PC labs. As a group, you will conduct energy audits in selected PC labs and produce an evidence-based report/presentation to reduce waste.

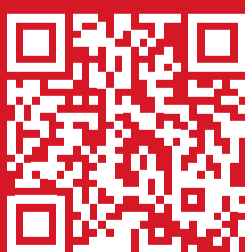

Gain skills and enhance employability through project management, presentation and leadership.

Make a difference on campus and connect with like-minded students.

No experience is needed, just enthusiasm and the ability to volunteer for at least two hours per week.

THINK BLUE: PROTECTING OUR WATER FUTURE

Get involved
in the Students
Sustainability
Leaders
network.

Join other students to research on global water scarcity. As a group, you will deliver a water awareness campaign highlighting practical water-saving tips and actionable behaviours in reducing water waste in student accommodation, at home and on campus.

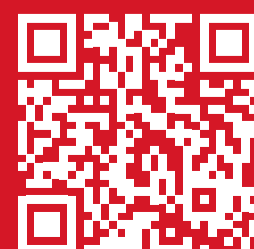

Gain skills and enhance employability through problem-solving, research and analysis, and environmental awareness.

Make a difference on campus and connect with like-minded students.

No experience is needed, just enthusiasm and the ability to volunteer for at least two hours per week.

MOVE SMART: ACTIVE TRAVEL FOR A GREENER CAMPUS

Get involved in the Students Sustainability Leaders network.

Join other students to promote active travel on campus. As a group, you will identify three key barriers to active travel and run a one-day promotional event to create awareness of active travel options.

Gain skills and enhance employability through strategic thinking, stakeholder management and communications.

Make a difference on campus and connect with like-minded students.

No experience is needed, just enthusiasm and the ability to volunteer for at least two hours per week.
